

THE SEDUCTION - OPEN HOUSE CATALOGUE OF ARTWORKS

We love art. Truly.

And we also want good art to be shown and find a home - whether in a gallery or in a private apartment.

This exhibition is a selection of works that are eventually connected with dimensions. Both figurative and immaterial, and completely corporeal. Giving fresh faces the opportunity to settle inside Barcelona area, we want to show unity, brightness and diversity of the contemporary scene. Somewhere it is about sharpness and strength, and within other pieces about naivety and sincere eroticism.

The flow and movement of an open art studio bursts into an apartment that has not yet been inhabited. You can touch and move the canvases, there are no alarms screaming for excessive approach. You can forget about white cube restrictions.

The peculiarity of the entire exhibition is that in a commercial environment, not replicated and senseless art is shown, but a selection of contemporary young artists, where each work has its own spirit and history behind it.

Many people say that painting and sculpture are becoming a thing of the past, however, maybe we just need to broaden our horizons beyond the white gallery space?
